

ROGER A. MOUSHABEK, M.D.

CIRRICULUM VITAE

PROFESSIONAL

Dr. Moushabek is board certified in Internal Medicine as well as Quality Assurance and Utilization Review. He attended USC and received his medical degree from AUC. He completed his Internal Medicine residency at Franklin Square Hospital in Baltimore, Maryland. He stays current on all the most recent advances and changes in health care, particularly Industrial Medicine, which allows him to provide state-of-the-art treatment while remaining cost effective. He is on the cutting edge of treatment for the back and spine, utilizing the most advanced muscle strengthening techniques and equipment available today. He attends conferences on all aspects of treatment for musculoskeletal injuries, including networking with chiropractors, physical therapists, orthopedic surgeons, and neurosurgeons.

INDUSTRIAL

Dr. Moushabek assists employers with focusing on injury prevention and management through:

- (1) proper employee selection
- (2) safety and prevention programs
- (3) Early and aggressive treatment

These programs are specifically tailored to the individual needs of the employer, and include an on site analysis of the workplace. This allows for knowledgeable relations with employers regarding their employee's job requirements and the creation of custom programs for employee selection and injury prevention.

PERSONAL

On the personal side, Dr. Moushabek has been a resident of the High Desert for over 29 years and is active in many community efforts. He is married and has 2 children, with whom he prefers to spend much of his free time being involved in their activities and sports.
